WC-control by 2 cables according to DIN 18024 T2

ø 29 - 36 mm

This diagram illustrates the components of the power supply unit. It includes a 6V DC input cable with a lightning bolt symbol, a 6V battery pack (labeled 4x), a coiled power cord (labeled L = 170 cm), a power cord extension (labeled L = 2 m), a power cord connector (labeled 4x), a power cord plug (labeled 2x), and a power cord socket (labeled 4x). The diagram also shows a 6V DC output cable and a 6V DC output plug.
